## Text Reviews:

“Amazing read!!! Couldn't put it down. Took me through a range of emotions. Sadness. Horror. Surprise. A must read!”

“Room 23 pulled me in from the beginning. The story-line is full of suspense, thrilling scenarios and a cast of personalities the author superbly developed and introduced. This story left me pleasantly exhausted and at the same time excited for John Wolfe's 2nd case.”

“This book had all the right elements of a suspenseful thriller! Cant wait to read more John Wolfe books!”

“Amazing premise, fantastically executed. I started the book and finished it in one night. I could NOT put it down! Cannot recommend this book enough! I hope this is the first of many.”

## Synopsis:

**A disturbing thriller that will stay with you for a long time.**

600,000 people are reported missing in the United States—every year. John Wolfe has never reported any, but has certainly caused some. There is real evil in this world and you won't shed a tear over the ones he caused.

He's a member of a secret, self-run agency. Nobody knows his real name, and that's just the way that he wants it. It was a Tuesday when he got the call for this assignment.

What could possibly drive a man to enter this line of work?

A young couple on their honeymoon has a long trip ahead of them and need a place to stay for the night. John is watching the Innkeeper's every move.

Can he move in before it's too late? If he does, can he get back out?

## Author Reviews:

*Facebook fan:* "You all know I'm a John Grisham girl, but Pete Nunweiler is just as good if not a better writer!!!"

*Facebook Review:* "Thank you for the amazing books. Keep writing please. Patterson was my favorite writer, but I think you knocked him down to #2.

*Facebook Review:* "I've got to admit I've gotten addicted to his writing. Best to come along in a long time."
